**Testimonial for Tom Ellerby of 1<sup>st</sup> Byte IT**

I'd like to say a big thank you to you Tom & your employees for retrieving my precious files.

As you know my external hard drive fried, possibly caused by a power surge.

I'm grateful that your team had the skills & knowledge to be able to strip down the casing of the hard drive and salvage the files.

Well done to your team! & I must also add that they were extremely accommodating and professional.

I wouldn't hesitate in recommending your company to anyone in need of IT experts like yourselves.

Kindest regards,

David Charles
