

FULFORD

AUTO SERVICES

MOTs, SERVICING & REPAIRS TO ALL MAKES OF
CARS & LIGHT COMMERCIALS

1st Byte IT Solutions

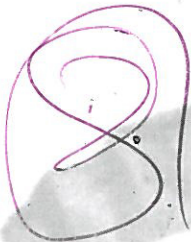

Tom and his team at 1st Byte IT have been looking after our IT at Fulford Auto Services for a couple of years now.

The services they provide cover full technical support over the phone, remote and onsite along with a full back up service for all our data.

They are always professional, helpful and reliable and on one occasion arranged for a totally destroyed harddrives data to be fully retrieved saving us a small fortune!

I would have no reservation in recommending Tom and his team to any business as I am confident they provide the same excellent level of service to all their customers.

Kind regards
