Dear Tom

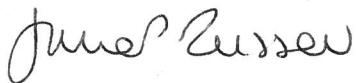

I would like to thank you for your help recently when the York Against Cancer hard drive failed. A member of your staff came out identified the problem, lent us a temporary drive and then came back to replace with a brand new hard drive.

This could have caused considerable business disruption but because of 1st bytes efficiency York Against Cancer suffered minimal down time.

1st byte always do what they say they're going to do, on time and professionally.

Thanks very much Tom.

Kind regards

Julie Russell
